SOFTUNI - SOFTWARE UNIVERSITY

- Java Web Developer
- Javascript Advanced
- React Web Development

2019 - 2021

UDEMY

- Angular - The Complete Guide
- React - The Complete Guide
- Javascript - From Beginner to Expert

EXPERIENCE

ENDAVA

Intership

08/22 - 11/22

Me and my team worked on an application - platform for candidates becoming interns and eventually getting hired. We used React and Typescript as the main foundation of the project.

ENDAVA

Intership

04/22 - 07/22

Working as an inter at Endava,I was able to work with a team of five, and we developed a web application - an online library. The app was created using Angular and some libraries like Bootstrap and RXJS. I was able to learn to do things the Agile way and acquired experience with Azure DevOps and GIT.

6OK

Customer Service Representative with English

09/19 - 01/22

Working as a customer service representative for two years taught me a lot of new skills, like better communication and team work. There were times where you had to think fast and find a solution, which helped me develop good logical thinking as well as issue resolving.
